

# Interns for the Business Intelligence Team

FUJIFILM Diosynth Biotechnologies is on an incredible journey, our company is expanding at a breathtaking pace and we are just getting started. To navigate our company during such a rapid expansion we need to utilize, optimize and automate our data and how we work with it.

The Business Intelligence unit in Hillerød works as an internal consultant to our entire global company in exactly how we can do this. The main objective of the team is to enable all of us to have data at our fingertips so we can take better and faster decisions.

## **Your main tasks and responsibilities could be**

- Automating and speeding up tasks using Alteryx
- Developing and creating simplified data sources with the use of Alteryx.
- Help stakeholders visualize their data with Tableau.
- You will get a chance to get your mind around how to optimize and influence a company with the use of visual dashboards and data-driven decisions.
- Learn as much as possible about all the different ways we work with data and how you can improve them
- We don't expect you to know how to use Alteryx or Tableau, but we do expect that you have a strong interest in learning to use the tools

Furthermore, you will be participating in a great journey with an excellent team.

## **Qualifications and Education**

You are enrolled in a Bachelor or Master Program, preferably Engineering, Manufacturing and Management, Process and Innovation, IT and Economics, Data Science or similar.

We are an international company where fluency in English is required.

As a person, you thrive in a multicultural and busy work environment. You are detail oriented and keen on working with data. You are responsible, organized, and able to work independently with our tasks. Furthermore, you are a good team player who thrives on steep learning curves.

## **Your application**

If we have sparked your interest in this internship, please upload your CV and a short cover letter as soon as possible as we will be doing interviews on an ongoing basis. The start date will be the 1st of August 2023. The internship is for 5-6 months.

Please be aware that it is a requirement that you receive ECTS points for your semester from your university.

Please apply for this role through our website: follow QR-code. In case you have any questions or doubts, please do not hesitate to contact Head of Business Intelligence Mia Knudsen on +45 72 14 17 62.

## **Working at FUJIFILM Diosynth Biotechnologies**

FUJIFILM Diosynth Biotechnologies is an industry-leading Biologics Contract Development and Manufacturing Organization (CDMO) with locations in Hillerød, Denmark, Teesside, UK, RTP, North Carolina and College Station, Texas, USA. We use our skills, dedication, and ambition to enable impact for the world's most innovative biotech and biopharma companies reimagining healthcare's potential.

We work across the entire lifecycle of our customers' products – enabling success throughout. Every cure, vaccine, biologic, and advancement we contribute to starts with our people and our passion. We fuel one another's passion, help accelerate progress, expand capabilities, strengthen innovation, and improve processes to improve lives.

We offer the chance to be part of a global workplace where passion, drive and commitment are met with opportunities for professional and personal development. Deeply committed to diversity and inclusion, we ensure that everyone no matter their background or gender has an opportunity to develop. We take pride in enriching our communities, caring for our environment, and cultivating a world of opportunity for future generations.

We aim to foster a collaborative, innovative and rewarding environment, where diverse perspectives and people come together united by a common purpose and shared values. We pursue our fullest potential as individual contributors and team members. We strive to be the employer of choice and offer a competitive compensation and benefit package.

As we continue to enhance and expand our capabilities, we are looking for people who share our passion, drive, and energy – what we call Genki – to join our team.

FUJIFILM Diosynth Biotechnologies Denmark (FDBD) is an Equal Opportunity Employer. All qualified applicants will receive consideration for employment without regard to race, color, religion, sex, national origin, disability, sexual orientation, gender identify or any other protected class.
